

Fitness Center

Our multi-room fitness center helps residents live a healthier lifestyle. Physical activity is not just the best way to prevent illness, but it also expands quality of life and decreases depression.

Through our affordable membership plans, our members can join a variety of group fitness classes that cater to all types of fitness impact levels or enjoy the fitness equipment room filled with treadmills, recumbent bikes, an indoor heated pool as well as elliptical and strength machines.

Informed Consent for Exercise Participation

Member # _____

I desire to engage voluntarily in **OmniPoint Health** Community Center exercise program in order to attempt to improve my physical fitness. I understand that the activities are designed to place a gradually increasing workload on the cardio respiratory system and to thereby attempt to improve its function. The reaction of the cardio respiratory system to such activities can't be predicted with complete accuracy. There is a risk of certain changes that might occur during or following the exercise. These changes might include abnormalities of blood pressure or heart rate.

I understand that the purpose of the exercise program is to develop and maintain cardio respiratory fitness, body composition, flexibility, and muscular strength and endurance. All exercise programs include warm-up, exercise at target heart rate, and cool-down. The programs may involve walking, jogging, swimming, or cycling (outdoor and stationary); participation in exercise fitness, rhythmic aerobic exercise, or choreographed fitness classes; or calisthenics or strength training. All programs are designed to place a gradually increasing workload on the body in order to improve overall fitness. The rate of progression is regulated by exercise target heart rate and perceived effort of exercise.

It has been recommended to me that I should consult with my medical provider before starting any exercise program to determine the safety of beginning an exercise program. In the event that a medical clearance must be obtained prior to my participation in the exercise program, I agree to consult with and obtain written permission from my medical provider prior to the commencement of any exercise program.

I understand that I am responsible for monitoring my own condition throughout the exercise program and should any unusual symptoms occur, I will cease my participation and inform the instructor of the symptoms.

Also, in consideration for being allowed to participate in **OmniPoint Health** Community Center exercise program, I agree to assume the risk of such exercise, and further agree to hold harmless The Wellness Center at Bayside and its staff members conducting the exercise program from any and all claims, suits, losses, or related causes of action for damages, including, but not limited to, such claims that may result from my injury or death, accidental or otherwise, during, or arising in any way from the exercise program.

In signing this consent form, I affirm that I have read this form in its entirety and that I understand the nature of the exercise program. I also affirm that my questions regarding the exercise program have been answered to my satisfaction.
